

# How to select funding in eForms (and avoid the error message!)

When you are in the HR/Payroll System and you need to **reallocate funding for a specific action or hire students**, follow these important steps:

Use Current Base Pay Funding? **No, indicate other**

**New Additional Pay Funding**

Amount	Percent	Select Non-Base Funding	Operating Unit	Department	Fund Code
1	0.000000	<b>Select Non-Base Funding</b>	CL085	430000	A0001

**Total Distribution**

Percent Total **100.00**

Notice the gray Select Funding button. For different actions, the title of this button might vary slightly.

**Select Non-Base Funding**

## Example: Changing funding within an existing department

When you click on the gray Select Funding button, the screen will display Select Chartstring search criteria. The chartstring search automatically populates the base pay funding string.

**Select Chartstring**

Combination Code

Operating Unit	Department	Fund Code	Account	Class Field	Business Unit
CL085	430000	A0001	51200	504	

Project/Grant  Activity ID  Cost Share

**Search**

**Note:** You can narrow your search results if you enter data in additional chartstring fields. This is helpful if the chartstring you are trying to select is a sponsored project.

To search for different funding, you must manually clear the information in all fields that you need to replace.

In the example on the right, we cleared Combination Code at the top – and the Fund Code and Class Field below. This left us with operating unit, department, and account – which are the constants for this example.

**Select Chartstring**

Combination Code

Operating Unit	Department	Fund Code	Account	Class Field	Business Unit
CL085	430000		51200		

Project/Grant  Activity ID  Cost Share

**Search**

When you click the Search button

**Search**

all valid chartstrings matching the entered search criteria appear below.

From here, click to select the applicable Combination Code (in blue).

The newly selected chartstring fields will then populate in the eForm.

**Select Chartstring** x

**What if there are no results?** If a combination code (chartstring) is missing from the PeopleSoft HCM system, send a request for one to [cfmaint@mailbox.sc.edu](mailto:cfmaint@mailbox.sc.edu). Remember to include all chartstring fields, ideally in the form of a screenshot from the Finance PeopleSoft system.
